

MATCHPOINT BLADE SAW

ADVANTAGES:

- High capacity truss & frame cutting.
- High accuracy.
- Customisable printing.
- Crooked Lumber Sensor (CLS)
- Low maintenance design.
- Compound mitre capable.
- Full OptiFlow integration.
- Excellent timber optimisation & low waste.
- Automatic infeed deck.
- Integrated waste conveyor.
- 23" touchscreen interface.

MATCHPOINT BLADE SAW

Description:

The MiTek MatchPoint Blade is a high capacity, high accuracy, single bladed linear saw designed to cut truss and frame components.

Features:

- High capacity saw – up to 450 parts per hour.
- Printing on up to three sides of the part.
- Compound mitre capable.
- Crooked Lumber Sensor (CLS) for improved accuracy.
- Automatic timber staging deck for timber between 1.2m and 6.0m (Autodeck).
- Off-line optimisation software.
- Full OptiFlow integration.
- Operation via 23" touch screen.
- Board sizes: Width – 35 to 50mm
Height – 65 to 285mm
- Accuracy: $\pm 1\text{mm}$ and 0.1 degree.
- Cuts parts as short as 50mm, ejected to the outfeed deck.
- Suits the Apex Machinery WoodRunner timber delivery system.

Specifications:

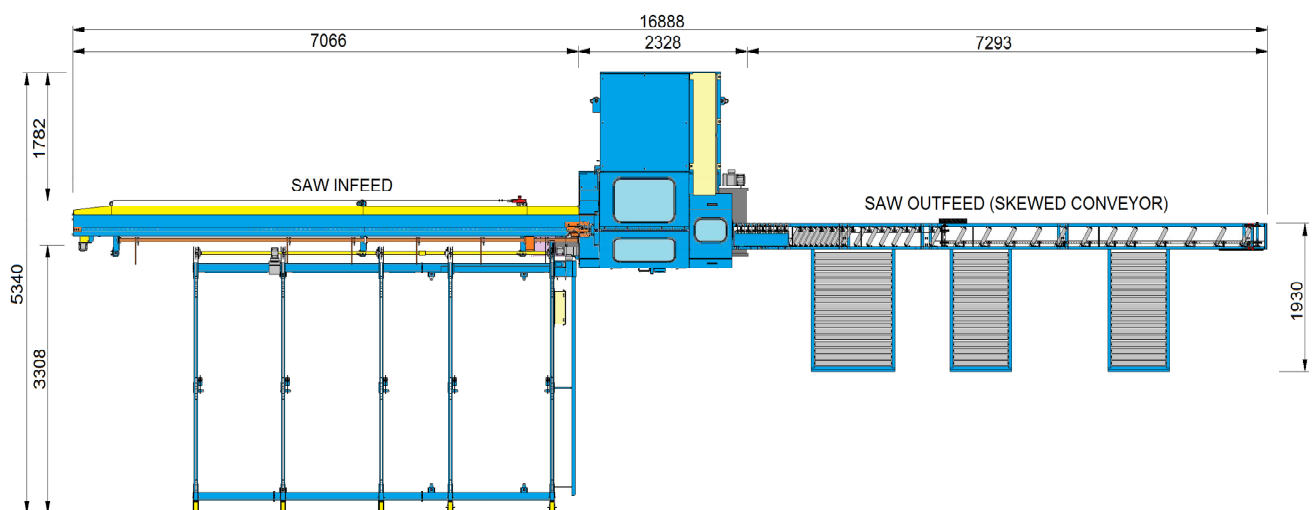

- Power: 415V, 3 Phase & Earth; 50 Amps.
- Air: 15CFM (peak) with 19mm supply line.
- Blade Motor: 5hp motor, 4200 RPM

Options:

- Additional chain strands on the Infeed Deck (Autodeck) to suit any length timber stock.
- Additional edge or face printers.
- Incline waste conveyor
- Outfeed Deck: powered skewed conveyor or conventional conveyor with kick-off.
- Dust extractor.
- Waste conveyor outfeed direction.

Board Stretcher (Optimisation software):

- Office based cutting optimisation to maximise saw availability.
- Import MiTek MME files.
- Optimise according to waste or timber price.
- Manage timber stock inventory.
- Generate timber picking lists for pre-picking of timber stock.
